

The History of the Apostolic Alignment of This and Related Ministries

Two major events occurred in 1990 – the forming of Glory of Zion International and the World Prayer Movement. This began moving us to pray and go to nations where Christianity and church life had little impact. Peter and Doris Wagner were instrumental mobilizing the world prayer movement through Global Harvest Ministries. I aligned Glory of Zion International, a ministry to assist other ministries as well as encourage an understanding of One New Man (Eph. 2:15), and became part of this movement. I eventually became Vice President of Global Harvest Ministries in 1996.

In that same year, Peter Wagner began to help the Body of Christ make a paradigm shift toward the understanding of apostles and their role in the Kingdom. Prophets had been restored, which created a new awakening in the Church world. Though the apostolic gift is clearly stated in the Word of God, encouraging the Body of Christ and leadership throughout the world to recognize that gift caused another major upheaval in the religious realm that was pastor/administrator driven. Since that time, Robert Heidler and I have written two books that have really helped the Body of Christ, *The Apostolic Church Arising* and *The Triumphant Kingdom*.

In 2006, I received a call to “**gather the scattered sheep**”. The Lord spoke to me, “*Tell My people to BE SURE YOU ARE ALIGNED somewhere!*” At that time, the call of Glory of Zion International shifted as we learned to gather and align in new ways. The Web Church became a reality. Not only did we develop a webcast ministry, but we encouraged people to partner with us as individuals and groups (e.g. Zion Aligned, Houses of Zion, Businesses of Zion, Ministries of Zion and Churches of Zion). When we began streaming our services online, I received tremendous flack and was told that I could not do church on the web. But this past year we’ve seen that you could not do church unless it was on the web! What began over 14 years ago positioned us to keep advancing and even expanding in challenging times.

After I became Vice President of Global Harvest Ministries, Peter and I began to model an apostolic/prophetic relationship for the Body of Christ. When Peter turned 80, the relationship changed. Along with Peter and Doris, I started a new network ministry called Global Spheres, Inc., and our modeling relationship changed. I became President and Peter became Vice President as he and Doris made their transition from Global Harvest Ministries to Global Spheres, Inc. They also “passed the baton” to other key apostolic leaders in all the ministries they had created. This was a good representation of the way apostles and prophets make their shift. Additionally, Peter and Doris moved their residence from Colorado to Texas.

During this time, the Lord sovereignly led me to develop a prototypical apostolic center for all of us to have as a guide – the Global Spheres Center in Corinth, Texas. Many of you have aligned here through Global Spheres, Inc., and others of you through Glory of Zion International. I have spent the last eight years creating this storehouse of the future. Apostolic centers are the key glory hubs where war and triumphant strategies will be released to advance the Church in days ahead. They will be used to host awakening and be a place where the move of God can be established.

Peter went on to be with the Lord almost four years ago, and I have continued to transition from one apostolic move to the new apostolic era that we are now living in. However, I’ve known for some time that we must begin to develop new types of communication and connecting. That is why I am so excited to initiate and make available this new organism for alignment, ***Kingdom Harvest Alliance***.
